SPORTS SURFACES

# Acrylic Resurfacer Flex

HIGHLY FLEXIBLE ELASTOMERIC RESURFACER  
FOR SUPERIOR CRACK RESISTANCE

Self-Crosslinking  
TECHNOLOGY

## Tested at over 400% elongation.

Refresh Resurfacer is intended for new and existing asphalt or concrete based professional and recreational sports surfaces when excess smoothing or repair work is required.

### Advantages:

- Reduces surface cracking
- Extra heavy sand loading
- Excels in fabric repair system smoothing

Colors: Black, Neutral

Refresh Resurfacer excels in holding heavy sand loads and maintaining flexibility on new asphalt surfaces while also reducing hairline surface cracks caused by substrate fluctuation.

Also available:

**Refresh Resurfacer Premix**  
FACTORY PREMIXED WITH SAND
