

ACRYTECH™
SPORTS SURFACES

Colorguard™ Flex

HIGHLY FLEXIBLE & CRACK RESISTANT

Self-Crosslinking
TECHNOLOGY

Tested at over 120% elongation & 270 psi tensile strength.

Colorguard™ Flex is designed for use on cushioned systems and flexible overlays 1/4" thick or greater. Ideal for courts with substantial substrate movement and fabric crack repair systems.

Advantages:

- Reduces surface cracking
- Spider crack prevention with crack repair systems
- Both strong and flexible
- Easy application and squeegee pull

Available in Concentrate and Textured, upon request
